Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-2 & 17-22 are drawn to CAC, classified in class 370 subclass 230 (Group I)
 - II. Claims 3-16 are drawn to Multicasting or Broadcasting, classified in class 370, subclass 390 (Group II)
2. Inventions CAC and Multicasting or Broadcasting are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions CAC and Multicasting or Broadcasting are unrelated because one would not have search for multicasting or broadcasting when searching CAC.
3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.
4. A telephone call was made to Julie Reed on 7/31/07 to request an oral election to the above restriction requirement, but did not result in an election being made.
